

MOHIT RAJESH HIVARE

React JS Frontend Developer

Pune, India — +91 9922782875 — mohithivare2@gmail.com — mohithivare.github.io/Portfolio

Professional Summary

React Frontend Developer with around 2 years of experience building scalable, high-performance web applications using React, JavaScript (ES6+), TypeScript, and Next.js. Strong experience in state management with Redux Toolkit and TanStack Query, REST API integration, and Strapi Headless CMS. Implemented real-time features using WebSocket and WebRTC, with a focus on responsive design, performance optimization, and Agile/Scrum development.

Technical Skills

Frontend Technologies: React, Next.js, Angular, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap

React Ecosystem: Redux Toolkit, TanStack Query (React Query), React Router, Axios, React Hook Form

Web Concepts: DOM, Flexbox, JSON, AJAX, Responsive Design, Performance Optimization

Rendering and Architecture: SSR, SSG, ISR (Next.js), Micro-Frontend Architecture, System Design

Real-Time Technologies: WebSocket, WebRTC

Backend and APIs: RESTful APIs, Strapi (Headless CMS)

Tools and Platforms: Vite, Git, GitHub, Postman, Chrome DevTools, Jira

Databases: MySQL

Methodologies: Agile, Scrum

Professional Experience

Full Stack Developer – React

MarsDevs

Jan 2025 – Dec 2025

- **Project 1: Real-Time Social & E-Commerce Platform**

Domain: Social Media, E-Commerce, Real-Time Communication

Main Technologies: React.js, JavaScript (ES6+), Tailwind CSS, WebSocket, WebRTC, REST APIs

Project Summary: Developed a real-time social and e-commerce platform enabling live chat, video consultation, and role-based user interactions.

Responsibilities:

- Developed Admin and User modules using React.js and Tailwind CSS.
- Implemented real-time chat functionality using WebSocket.
- Integrated video consultation features using WebRTC.
- Handled complete UI development and REST API integration.
- Built reusable and scalable React components.
- Ensured responsive design and cross-browser compatibility.

- **Project 2: Job Portal Platform**

Domain: Recruitment, Job Management

Main Technologies: React.js, JavaScript (ES6+), React Router, REST APIs, Tailwind CSS

Project Summary: Designed and developed a job portal platform similar to Indeed with role-based dashboards and job management features.

Responsibilities:

- Designed and developed Admin and User dashboards using React.
- Implemented job posting, job listing, and application workflows.
- Integrated REST APIs for job and user data management.
- Implemented routing and role-based access control.
- Optimized UI performance and usability.

- **Project 3: Corporate Website**

Domain: Corporate Web Presence

Main Technologies: HTML5, CSS3, JavaScript, Next.js

Project Summary: Developed a responsive corporate website with modern UI design and full device compatibility.

Responsibilities:

- Developed responsive UI components supporting all screen sizes.
- Ensured full cross-device and cross-browser compatibility.
- Implemented modern layouts using Flexbox.

- **Project 4: Blockchain-Based Automation System**

Domain: Blockchain, Test Automation

Main Technologies: Python, Playwright, Automation Frameworks

Project Summary: Built automation scripts to streamline blockchain workflows and reduce manual testing efforts.

Responsibilities:

- Developed automation scripts using Python and Playwright.
- Automated repetitive testing workflows to improve efficiency.
- Reduced manual testing effort through reliable automation.
- Optimized test execution time and coverage.

Front End Developer – Angular

Sculpture Tech

Apr 2024 – Jan 2025

- **Project: E-Commerce Platform**

Domain: E-Commerce

Main Technologies: Angular, RxJS, TypeScript, REST APIs

Project Summary: Developed a scalable e-commerce frontend application with modular and reusable components.

Responsibilities:

- Built modular and reusable UI components using Angular and RxJS.
- Implemented product listing, cart, and checkout workflows.
- Integrated REST APIs for product and order management.
- Collaborated with backend teams to ensure smooth data flow.
- Delivered responsive and high-performance user interfaces.

Education

Bachelor of Engineering (B.E.) — Savitribai Phule Pune University, Pune
